

eclipse

Customisable Panels

Side panels can be customised to suit any need or environment.

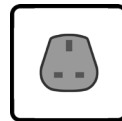

Soft Pre-infusion Heads

Allow coffee to develop its flavour naturally and completely saturate every dose.

Group Flushing

Keep each group clean and ready to go between brews with just the push of a button.

Plug in and Go Power

Can take power straight from a mains socket with a normal UK three-pin plug.

2x Anti-suction Steam Wands

Straight flow wands ensure minimal steam restriction for effective frothing.

This high-performance range of Eclipse espresso machines are ready to be personalised - it's a machine you'll truly be proud to show off. Features also include a hot water tap. It produces up to around 80 drinks a day.
